INTERFIT – NEW 1000 WATT & 1500 WATT TUNGSTEN KITS WITH INSTRUCTIONAL DVD

Interfit, one of the leading manufacturers of tungsten lighting is pleased to announce the arrival of a remarkably simple lighting system. Interfit Lighting is the preferred educational tools in many learning establishments around the world, chosen for their simple and ease of use.

The SXT3200 is available in two highly specified kits, both available with a new educational training DVD especially commissioned to show just how easy tungsten lighting can be for first time or advanced users. The DVD is feature packed for both product and portrait photography. It also includes many professional tips on getting the best results from the system and setting up your camera.

The Two head SXT3200 kit includes an all in one carry case for storage and transportation along with 2 air-cushioned lighting stands, 2 SXT3200 heads, 2 umbrellas and power cables.

In addition to the above kit, the three head kit includes a newly developed background cloth and hook support system. It also includes a 3rd SXT3200 head and lighting stand to provide the background illumination.

The new SXT3200 benefits from an extensive range of accessories via the “S” type bayonet fittings allowing most of the Interfit Stellar or Venus creative light shaping tools to be used. Of particular benefit is the new RF5000 ‘beauty dish’ for stunning fashion and portraits photographs.

Tungsten lighting is compatible with all digital cameras. Additionally effective for tungsten balanced 400 asa colour film or for traditional black and white film enthusiasts.

Available from Interfit Main Dealers from November 07 from just £249.99 Inc vat for the two head kit, and £349.99 Inc vat for the three head kit.

Further information will be available on the Interfit Website

INTERfit Photographic Ltd

Interfit is a major supplier in studio lighting in the UK and rest of the world delivering products at affordable prices to a wider range of photographers.

The introduction of SXT3200 is an invaluable tool for Students, Medical, Forensic, Professional and Enthusiastic photographers. Tungsten lighting is simple to use as it is a continuous light source with ample power for most situations.

Interfit has provided Tungsten lighting over the years with the classic white head INT100 unit, the SXT3200 enables a far greater availability of accessories to be used via the widely acclaimed "S" type bayonet fitting accessories from Interfit and many manufactures to be used.

The Beauty dish RF5000 can be fitted directly to the SXT3200 when using INT500 250 watt replacement bulb this creates stunning results for Fashion and Portrait Photographers.

High Resolution Images will be available to download from 17/9/2007 from the Interfit Website
